How do I get the Key File to run the program

When the program is started for the first time you will see the following dialogue box

Application marbar-SE			13,00,01,00	x
	The program was unable to locate t	he registration key.		
	e received a registration key file from yo ed it, send the following computer ID to y Your computer ID is:	e advised		
	Mail to author Copy Computer	ID Close		

Outlook users

If you are using Microsoft Outlook as your email client

Click on the "Mail to author" Button this will place your computer ID in to an email ready to send to support@drillingsoftware.com

The key file will be generated and emailed back to you

Copy the attached key File to

C:\Program Files\Drillingsoftware\

Other email systems Gmail/Ymail etc

Click on the "Copy Computer ID" button

Open your email account and in the body of the email use Ctrl V to paste the computer ID in to the email this will avoid any typos trying to copy and type the ID

Send the email to support@drillingsoftware.com

The key file will be generated and emailed back to you

Copy the attached key File to

C:\Program Files\Drillingsoftware\

The key file must reside in the same folder as the program and will then activate the program
